

COLLABORATIVE IMPACT PROGRAM

FISCAL SPONSORSHIP AND MANAGEMENT SERVICES

The Collaborative Impact Program provides fiscal sponsorship and management services to programs and organizations to achieve aligned missions and goals. Through these intentional partnerships, the Collaborative Impact Program incubates, scales, and sustains creative endeavors to improve educational opportunities and outcomes for all Californians.

Fiscal sponsorship is an agreement in which an unincorporated effort that is consistent with our tax-exempt purpose and goals becomes one of our programs. Fiscal partners drive their own planning, development, and programmatic work, with our organizational support.

A **management services agreement** is an arrangement where we provide contracted services to an incorporated, tax-exempt organization that advances aligned goals. Our management services agreements support nonprofit organizations that are key partners in the California Community College system, such as professional associations, student government organizations, and regional consortia.

Partnering for Impact

Fiscal sponsorships and management services are partnerships for greater impact:

- Impact Partners are supported in achieving their vision through our expert nonprofit management services and our innovative approaches to enable success.
- Funders, donors, and other partner stakeholders increase their impact through expanded collaboration, capacity, stability, and reach.
- We achieve our mission and scale our impact by empowering our Impact Partners and leveraging their expertise, connections, perspectives, innovation, entrepreneurial nature and passion.

Our Impact Partners

We intentionally partner with groups and organizations poised to make an impact at scale in California and beyond. Our Impact Partners include:

- Projects with promising or proven practices that are ready to scale regionally or statewide.
- Networks or associations supporting their members through quality improvement, professional development, and taking on timely issues in their education-related fields.
- Programs that help achieve equitable outcomes in educational achievement and promote inclusion and diversity.

The Foundation for California Community Colleges is the official foundation to the California Community Colleges' Board of Governors and Chancellor's Office. The Foundation's mission is to benefit, support, and enhance the missions of the California Community College system, the largest higher education system in the nation. Incorporated in 1998, the Foundation works with Community Colleges and partner organizations to manage donations, grants, programs, and services that drive excellence in education. The Foundation is a 501(c)(3) tax-exempt nonprofit corporation and receives no direct state support.
